cablingnetworksolutions

1. Information required
- House address
- Meter number
- Electricity bill (Synergy)

2. Our company provide design options for your Solar system using Nearmap technology.

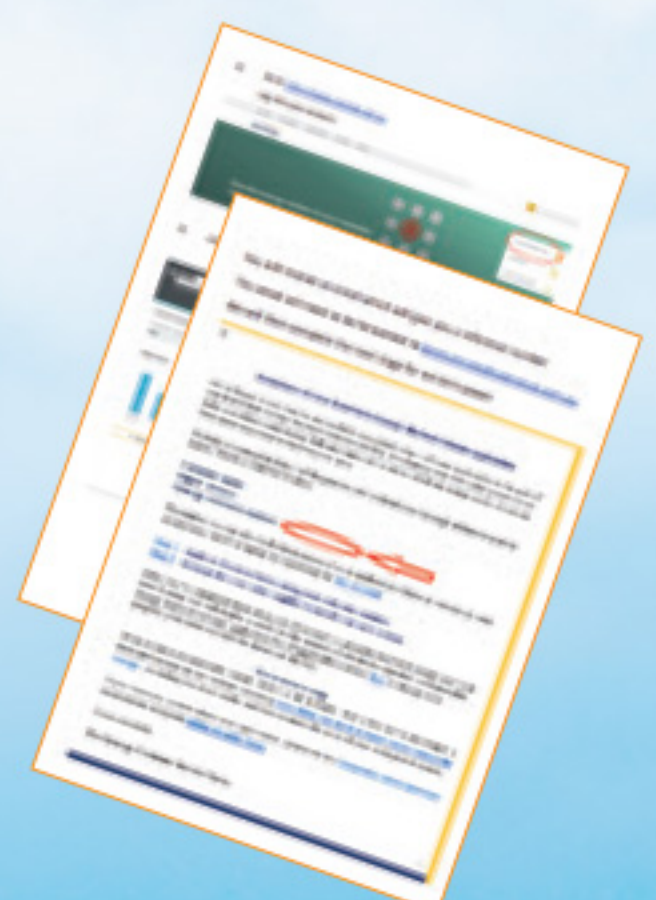

3. CNS will then present your tailored solar system and discuss the benefits and options.

- The quote is based on a year's worth of your Synergy bills and the hardware option chosen.

4. We provide a projected Synergy invoice using the Solar Energy System along with detailed costs outlining your overall investment.

5. Once the proposal has been accepted we then walk you through the Synergy forms and advise what you need to do.

6. You will then receive the Synergy reference number ... simply email it to us and we will take care of the rest.

Professionally installed by our solar accredited tradesmen all work comes fully guaranteed and checked by a qualified roof plumber

So what is the catch? ... for once there is no catch.

We make our money back from the government credits. This takes approximately 6 months.

Does this affect your solar rebate energy savings? ... no it's completely separate.

CNS are here to assist you on 9302 2330 or for full details on the installation process visit our website: www.cabnetsol.com.au
